

# Sycamore Police Station Addition

## PROJECT OVERVIEW

**Project:**

*Sycamore Police Station Addition*

**Client:**

*City of Sycamore, Illinois*

**Contract:**

*General Contractor*

**Harbour Contractors, Inc.** was selected by the City of Sycamore to perform renovations to the existing Police Department and construct the new 22,000 SF addition. The building is a two-story brick and block structure with a basement below grade. The lower level includes a training room / EOC and separate locker rooms for men and women. The main level includes interview rooms, records and reception, sergeants' office, roll call and report writing rooms, sally port and garages, booking room, three holding cells, evidence / property processing, and storage area. The second floor includes administrative offices, a large conference room, detective work area and interview room, and shell space for future needs.
