

**PROJECT OVERVIEW**

**Project:**  
*Chicago Fire Stadium  
Bridgeview, Illinois*

**Client:**  
*Steve Kozerowitz  
P: 312 656 0709*

*TOYOTA PARK Drive  
7000 S. Harlem Avenue  
Bridgeview, Illinois 60455*

**Engineer:**  
*Karl Fry  
P: 630 261 2783*

*Intersect LLC  
1516 Placer Court  
Naperville, Illinois 60565*

**Construction Cost:**  
*\$ 120 Million*

**Completion:**  
*Pre-Construction Services*

**Harbour** served as the Owner’s Representative for the Pre-Construction phase of the Chicago Fire Stadium (Toyota Park). The stadium required a tireless effort to put together the civil and structural engineering, laying the foundation for Construction Management to construct a winning world class facility. The Stadium hosts the MLS Chicago Fire home games and several concerts throughout the summer months. Toyota Park is capable of holding over 20,000 people and is easy to get in and out of thanks to the proper Civil Engineering performed before construction started.

Harbour enjoyed gaining stadium experience during this project and looks forward to the ability to offer a full service package for facilities of this nature in the near future.

**Services Provided Included:**

Owner’s Representation  
Survey & Layout

Project Management & Cost Controls  
Project Documentation  
Site Planning & Public Agency Coordination
