**Harbour** was selected as the Construction Manager for the addition to the DuPage Airport Authority's Hangar. This project involved a large amount of structural Steel and coordination with daily airport operations. The 48,000 Square Foot addition to the existing facility was designed to hold 2 additional planes and included the associated access taxiways.

Harbour has a long track record of completing technical coordination of work on airfields and has completed such work at O'Hare International Airport, Chicago Midway Airport, Gary Airport, DuPage County Airport, and the Sugar Grove Executive Airport.
