Harbour was selected as the Construction Manager for the new Waste Management corporate headquarters located in Oak Brook, IL. The 85,000 sq ft facility featured a cutting edge glass look with a 200 seat auditorium, full service cafeteria, and a below/above grade parking structure. Harbour performed so well during the construction management of this project that we have since been selected to perform Construction Management on several other Waste Management projects including a vehicle maintenance facility, and several waste transfer stations.
